CANSolutions
Offering solutions you CAN trust

A business, a brand, a person you can trust...

We have a very clear concept, which is based purely on being customer focused and providing the best possible service. With over two decades of experience, our leadership team's vision was to offer a completely transparent, upfront and honest approach to business mobile contract provision. Following our winning formula, we have since grown to serve over 2500 customers including business mobiles, landlines, energy, insurance and device management.

Who
are CAN Solutions?

We are an independent specialist providing multi-network mobile solutions, VOIP landlines and energy switching to businesses of all sizes. We are always striving to improve the way we support and manage our customers.

What
do we do?

Our mission is to simplify the world of business tariffs across the telecoms and energy market and help find the ones that best suit your needs and save you money into the bargain. We do all this with an attentive, proactive approach to account management.

Why?
Easy switching, that's why

We make switching straightforward by providing robust support from start to finish. We deal with all the transfers between service providers, assist you right through to set-up and implementation of new hardware and online billing.

Experts in our business

Saving Money, Account management and Service are our winning ingredients

We understand what it takes to succeed in business, and at the core of that is having people who care about customers. Pride in going the extra mile, the feeling that you've made a difference to someone's day and made their life a little bit easier is what keeps us motivated. When our customers come to us they have very individual needs and problems that need solving. We like to think that our independence and experience serving business customers of all shapes and sizes means we can offer what's right for them, not working purely to satisfy an anonymous group of shareholders focused on the bottom line.

At the heart of our success, though, **are our people.**

"We care about the team and how they feel about coming to work, believing that a fun and relaxed atmosphere within a fast-paced sales environment is essential"

- Tom Finch, Director

Our people

Find out more about what some of our people say about life at CAN Solutions.

Niamh Hough-Bunn

“Whilst being at CAN Solutions I have progressed from a Lead Generator to now being an Existing Account Executive. This has helped me reach my life goals and grow as an individual. CAN always look to develop your skills so that you can progress within the company. The thing I love most about CAN is it is like a family, you come and everyone welcomes you straight away. I’ve made lifelong friends and can truly say it’s a great place to work. The Company is growing rapidly and I have loved being on this journey with them.”

Samuel Stenning

“My time at CAN Solutions has seen me grow with some challenging but rewarding moments. The team I’ve worked with has always been supportive and enjoyable whether it’s my colleagues in the same team or a different department. I love the freshness and modern vibe the office gives us with the owners putting a lot of effort into our working environment. It would be fair to say that I am excited about the future with us continually growing bigger and bigger as well as developing my knowledge with new skill sets in areas which I didn’t already have.”

Ben Creswell

“CAN has given me the opportunity to flourish as an individual and made me feel a valued member of the sales team. Throughout the business I have had the vital support which has helped me achieve my personal goals as well as encouraging me and keeping me positive on a day to day basis. I’d recommend CAN to anyone thinking of looking for a new opportunity, there’s never a dull day!”
